How to use ScentOil?

1. Place the oil burner on a stable surface and remove the small sealing cap and the larger decorative cap.
2. Fill the oil burner 2/3 full with fragrance oil using the plastic funnel.
3. Light the wick. If you are using the wick for the first time, allow the oil to soak into the wick and stone for about two hours beforehand.
4. Light the stone and let the flame burn for three minutes, then blow it out.
5. Place the decorative cap (this is the larger open version) over the glowing stone for protection. For an optimal result, use the oil burner for +/- 30 minutes.
6. To extinguish your oil burner, remove the decorative cap. Then, place the snuffer over the stone, followed by the decorative cap.

ScentWaxSticks

De geur van de wax geurstokjes wordt verspreid wanneer er minimaal drie sticks in een ScentWaxStickBurner worden verwarmd. De hitte van een waxinelichtje zorgt dat de sticks smelten en een lekkere geur afgeven.

EN | The scent of the wax sticks is spread when a minimum of three sticks are heated in a ScentWax StickBurner. The heat from a tea light melts the sticks, which then exude a delightful fragrance.

DE | Der Duft der Wachsduftstäbchen entfaltet sich, wenn mindestens drei Stäbchen in einem ScentWaxStickBurner erhitzt werden. Die Hitze eines Teelichts bringt die Stäbchen zum Schmelzen und sie verströmen einen angenehmen Duft.
